

CONDU-MATE & STUD

DESCRIPTION

Condu-Mate
Condu-Stud

BASIC USE

Condu-Mate and Condu-Stud are fast and efficient tie-rod reinforcement anchors used in both positive and negative pressure installations.

Condu-Mate is comprised of a spring-steel anchor nut installed to the inside of EMT conduit pipe, sealed and fastened to the duct wall with a galvanized neoprene bonded washer and 1/4" x 1" plated hex bolt.

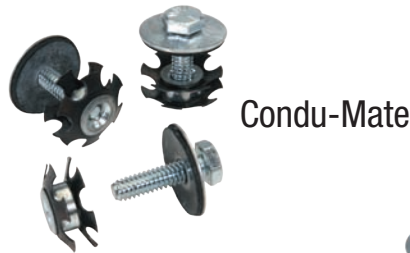

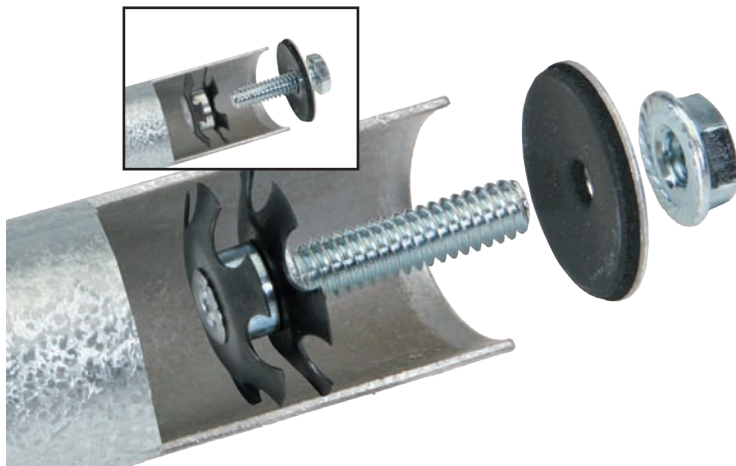

Condu-Stud is comprised of a spring-steel anchor bolt installed to the inside of EMT conduit pipe, sealed and fastened to the duct wall with a galvanized neoprene bonded washer and 1/4" serrated flange nut.
